Buscando Resources Corp.

Notes to the Condensed Consolidated Financial Statements

For the periods ended June 30, 2025 and 2024

(Expressed in Canadian dollars)

1. NATURE AND CONTINUANCE OF OPERATIONS

The Company was incorporated on June 9, 2017 under the laws of British Columbia, Canada and is engaged in the business of acquiring, exploring and developing natural resource properties located in Canada. Its head office and registered office is located at 309 – 2912 West Broadway, Vancouver, BC V6K 0E9. The common shares of the Company are listed on the Canadian Stock Exchange (“CSE”) under the symbol BRCO and on the OTC under the symbol BRCOF.

These financial statements have been prepared on the assumption that the Company will continue as a going concern, meaning it will continue in operation for the foreseeable future and will be able to realize assets and discharge liabilities in the ordinary course of operations. Different bases of measurement may be appropriate if the Company is not expected to continue operations for the foreseeable future. As at June 30, 2025, the Company has not generated any revenue and has a working capital surplus of \$61,903 (December 31, 2024 - \$324,798), has limited resources, no sources of operating cash flow and no assurances that sufficient funding will be available to continue operations for an extended period of time. The Company’s continuation as a going concern is dependent on its ability to generate future cash flows and/or obtain additional financing. These factors indicate the existence of a material uncertainty that may cast significant doubt about the Company’s ability to continue as a going concern. Management intends to finance operating costs over the next twelve months with cash on hand, loans from directors and companies controlled by directors and/or private placements of common stock. There is a risk that additional financing will not be available on a timely basis or on terms acceptable to the Company.

These financial statements do not include any adjustments to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

2. BASIS OF PRESENTATION

These condensed consolidated interim financial statements have been prepared in accordance with the International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) and Interpretations of the International Financial Reporting Interpretations Committee (“IFRIC”) applicable to the preparation of interim financial statements, including IAS 34, Interim Financial Reporting. The condensed interim financial statements should be read in conjunction with the annual audited financial statements for the year ended December 31, 2024, which have been prepared in accordance with IFRS as issued by the IASB.

The condensed consolidated interim financial statements were approved by the Board of Directors on August 22, 2025.

The condensed consolidated interim financial statements are presented in Canadian dollars, which is the functional currency of the Company.

The condensed consolidated interim financial statements have been prepared on a historical cost basis, except for financial instruments classified as financial instruments at fair value through profit or loss, if applicable, which are stated at their fair value. In addition, these condensed consolidated interim financial statements have been prepared using the accrual basis of accounting

3. MATERIAL ACCOUNTING POLICIEY INFORMATION

The Company’s significant accounting policies applied in these condensed consolidated interim financial statements are the same applied in Note 3 to the Company’s annual audited financial statements as at and for the year ended December 31, 2024. These condensed consolidated interim financial statements should be read in conjunction with the Company’s most recent annual financial statements.

The above transactions with related parties, occurring in the normal course of operations, were measured at fair value, are unsecured with no specific terms of repayment and are non-interest bearing, unless otherwise stated.

8. CAPITAL MANAGEMENT

The Company's objectives when managing capital are to safeguard its ability to continue as a going concern so that it can provide returns for shareholders and benefits for other stakeholders. The Company considers the items included in shareholders' equity and cash as capital. The Company manages the capital structure and makes adjustments to it in response to changes in economic conditions and the risk characteristics of the underlying assets. The Company's primary objective with respect to its capital management is to ensure that it has sufficient cash resources to fund the exploration and development of natural resource properties. To secure the additional capital necessary to pursue these plans, the Company intends to raise additional funds through equity or debt financing. The Company is not subject to any capital requirements imposed by a regulator and there have been no changes in the Company's approach to capital management during the year.

9. FINANCIAL INSTRUMENTS AND CAPITAL RISK MANAGEMENT

The Company's financial instruments consist of cash, accounts payable and accrued liabilities and due to related parties.

Financial instruments measured at fair value are classified into one of the three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values. The three levels of hierarchy are:

Level 1: Quoted prices in active markets for identical assets or liabilities.
Level 2: Other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly.
Level 3: Techniques which use inputs that have a significant effect on the recorded fair value that are not based on observable market data.

The fair value of cash is determined using level 1 inputs.

The Company's financial instruments are exposed to certain financial risks, which include the following:

Credit risk

Credit risk is the risk of loss due to the counterparty's inability to meet its obligations. The Company's exposure to credit risk is on its cash. Risk associated with cash is managed through the use of major banks which are high credit quality financial institutions as determined by rating agencies. Credit risk is assessed as low.

Buscando Resources Corp.

Notes to the Condensed Consolidated Financial Statements

For the periods ended June 30, 2025 and 2024

(Expressed in Canadian dollars)

9. FINANCIAL INSTRUMENTS AND CAPITAL RISK MANAGEMENT (continued)

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company's approach to managing liquidity risk is to ensure, as far as possible, that it will always have sufficient liquid funds to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation. As at June 30, 2025, the Company had a cash balance of \$11,856 to settle current liabilities of \$193,538. Liquidity risk is assessed as high.

Market Risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises two types of risk: interest rate risk and foreign exchange risk:

Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company does not hold any financial instruments that are subject to fluctuations in interest rates. Interest rate risk has been assessed as low.

Foreign currency Risk

Foreign currency risk is the risk that the fair values of future cash flows of a financial instrument will fluctuate because they are denominated in currencies that differ from the respective functional currency. As at June 30, 2025, the Company does not have any financial instruments denominated in a foreign currency. Foreign currency risk has been assessed as low.
